EXPERIENCE

Front End developer

Antrorse Technosoft pvt ltd **November 2023 - Present, Remote**

- Spearheaded the development of an ecommerce marketplace platform utilizing the **MERN stack**, resulting in a **30% increase** in website traffic and a **20% rise in sales** conversion rate.
- Designed and implemented user interfaces for the **admin, seller, and buyer panels**, ensuring a seamless user experience.
- Integrated payment gateways(**Paypal** and **Phonepe**), enabling safe and reliable transactions for buyers and sellers.
- Implemented Shipping API(**Shiprocket**) to enable real-time tracking of ordered products, improving customer satisfaction and reducing delivery errors.
- Collaborated closely with the backend team to develop and integrate **RESTful APIs**, ensuring smooth data flow between the frontend and backend systems.
- Implemented **Redux** for efficient state management, enhancing the performance and scalability of the application.
- Conducted regular code reviews and provided constructive feedback to maintain code quality and consistency.
- Actively participated in **project planning** and brainstorming sessions, contributing innovative ideas to improve the platform's functionality and user engagement.
- Technologies used: ***ReactJs, Nodejs, MongoDB, ExpressJS, Redux, Restful APIs, ShipRocket, PhonePe, PayPal***

Front End developer - Intern

GLOBE ACTIVE TECHNOLOGIES LIMITED **April 2023 - October 2023, Remote**

- Redesign of **Panchamal Properties (Real estate)** website using the **MERN stack**.
- Implement features for **wholesalers** and **retailers**, including a database for **managing customers**, **order booking**, and **payment processing**.
- Integrate online payment (**PhonePe**) to facilitate secure and convenient transactions.
- Technologies used: ***ReactJs, Nodejs, MongoDB, ExpressJS, Restful APIs, ShipRocket, PhonePe***

PROJECTS

Learner (Exam Preparation)

June 2024 - Present

- Developing an exam preparation mobile application using **React Native Expo** and **NativeWind** for seamless cross-platform compatibility and responsive design.
- implemented an intuitive user interface, providing a smooth user experience for navigating multiple-choice questions and tracking progress.
- Integrated a question bank with varied difficulty levels to support comprehensive exam preparation for users.
- Implemented state management to handle user data, including scores and progress, ensuring a personalized learning experience.
- Utilized **NativeWind** for styling, achieving a consistent and visually appealing design across different devices.
- Ensured the application's performance and responsiveness through optimization techniques and efficient coding practices.
- Conducted thorough testing to identify and fix bugs, ensuring a reliable and user-friendly application.
- Technologies utilized**: *React Native, Expo, NativeWind, TypeScript*, AdMob, Supabase.**

PriorityMail AI

prioritymail.vercel.app/ • June 2024 -June 2024

- Developed **PriorityMail**, a user-centric web application, leveraging **Next.js, React,** and **TailwindCSS** for a responsive and intuitive interface.
- Implemented Google OAuth for secure user authentication and integrated the **Gmail API** to efficiently retrieve and display emails.
- Enhanced email functionality by supporting both `text/plain` and `text/html` content types for a comprehensive viewing experience.
- Integrated **Gemini AI** to intelligently classify and **prioritize emails**, enhancing user productivity by highlighting important messages.
- Ensured secure and seamless session management with **NextAuth v5** and **TypeScript**.
- Optimized API usage through the creation of reusable instances and modularized code, improving maintainability and performance.
- Leveraged **ShadCN** UI components to deliver a consistent and aesthetically pleasing user interface.
- Technologies utilized**: *Next.js, React, TailwindCSS, NextAuth v5, Google OAuth, Gmail API, Gemini AI*.**

Festivus (Event Organizer)

festivus.vercel.app/ • March 2024 - March 2024

- Designed and developed a responsive and user-friendly web application using **Next.js** and **Shadcn.**
- Utilized **Next.js API/Server Actions** for backend functionality.
- Integrated **Clerk authentication** for user authentication and authorization, managing access to event creation and ticket purchasing.
- Utilized **UploadThing** for file hosting and **MongoDB** for secure storage of event information, user data, and transaction details.
- Integrated **Stripe** for payment processing to facilitate ticket purchases.
- Technologies used: ***NextJs, TypeScript, MongoDB, Stripe, Clerk, Zod, UploadThing***

Weather warden (weather app)

weather-warden.netlify.app/ • February 2023 - February 2023

- Developed an Interactive webpage that enables user to search for weather updates which reached **35%** visits as of June.
- Designed front-end code using **HTML,CSS, JavaScript** to create a responsive web application that works across 5+ devices.
- Reduced load times by **80%** by utilizing caching techniques
- Retrieves the last searched location on page reload and display weather conditions and its corresponding icons for visual appeal.
- Optimized Key areas for SEO objective and Improved google search accuracy by **75%.**

EDUCATION

Graduated in Msc with 80% from Hochschule Rheinwaal (2020)

SKILLS

Languages: TypeScript, JavaScript
FrontEnd: Next.js, React.js, Redux Toolkit, React Native
BackEnd: Node.js, Next.js API/Server Actions, Express.js
DataBase: MongoDB, MySQL
ORM: Prisma, Drizzle
